EDUCATION

Make School, San Francisco, CA

B.S. Applied Computer Science (Expected Aug 2021)

HIGHLIGHTS

- Developed, shipped, and is improved a tech service that is still in use today in Glasgow, Kentucky
- Partnered with a **Microsoft** Product Manager to develop and present Boundri, our capstone project

TECHNICAL EXPERIENCE

Raptor Maps

San Francisco, CA

Infrastructure/Software Engineer Intern

Aug 2020 - Oct 2020

- A capstone project focused on building the full machine learning pipeline in a software product development course at Make School.
- Engineered and designed infrastructure for a machine learning pipeline with continuous learning and development.

INDUSTRY COLLABORATION PROJECTS

R.Mend (Javascript, Firebase, React Native, Python, Django)

Aug 2019 - Present

- Developed an app that allows counties' road departments to quickly and easily report and manage road-related issues.
- Improved a county's road department communication and efficacy of fixing maintenance issues in the county. Currently deployed and in use by Barren County in Glasgow, Kentucky.

HOBBY PROJECTS

Boundri (Python, Swift, Computer Vision)

Dec 2019 - Present

- Developed the client-side for a mobile application with the mentorship of a Microsoft Project Manager for assisting the visually impaired better.
- Researched and benchmarked machine learning models for detecting text in natural images and objects in the surrounding scene.

Scam Defender (Web, Python, Tensorflow, Javascript)

Oct 2019 - Oct 2019

- Chrome extension that classified if a website is a phishing scam or not based on the pages content.
- Worked on the chrome extension and machine learning model

TECHNICAL SKILLS

Python, Sklearn, Keras, Tensorflow, SQL, JavaScript, React, React Native, Redux, Firebase, Django, Frontend Development, Backend Development, APIs, Docker
